

# STRENGTH TO STRENGTH

**Laser Electrical Narre Warren North** continues to grow from strength to strength, with Director, Nick Masson's recent acquisition of Laser Electrical Hallam assuring the business is set for even greater success.

Joining forces, the teams within the franchises will provide ongoing strength and leverage with the combined provision of both Industrial and Commercial electrical services.

Established in 1999, Nick Masson's Electrix Contractors Pty Ltd joined the Laser Group in 2008, trading as Laser Electrical Narre Warren North and specialising in the Commercial Electrical Services industry.

Nick's team has grown steadily from hiring his first apprentice in 2000, to a current team of 25 staff at Narre Warren North, joining with a further 18 staff at Hallam.

*'the integration of Laser Electrical Hallam brings a great opportunity for growth in both businesses as we are diversifying our offering to our existing and new clients.'*

The award-winning team at Laser Electrical Narre Warren North has recently achieved a number of industry accolades:

**LaserCon 2017** - Australian Electrical Business of the Year

**LaserCon 2017** - Outstanding Growth Winner

**LaserCon 2017** - Excellence in Software & Systems - Finalist

**LaserCon 2017** - Employee of the Year | Andrew Dunn - Finalist

**NECA Excellence Awards 2017** - Lighting: External Facade Lighting Drum Theatre Dandenong

**NECA Apprentice of the Year 2017** | Antony Accary - 3rd place

# Experienced Industrial Electricians That Can Work For You

---

Having been around since the late 1980s, **Laser Electrical Hallam** has a strong reputation for industry knowledge offering unique solutions to clients.

Laser Electrical Hallam is up to date with the latest technological tools, designs, and can achieve the best possible outcome for their clients.

We listen to our clients when they tell us they want to offer the best, when it comes to staff safety and compliance of complex manufacturing sites. Safety is paramount, and in addition to cost saving new technologies, such as motor control and power factor correction, is one of our main focus areas for offering to our clients.

Some of these terms are often just thrown about. We live and breathe it every day. We have the staff, resources and experience, to run your shutdown successfully. We pride ourselves on meeting deadlines and offer uninterrupted service throughout all the main holiday breaks, to ensure successful and cost effective turnaround.

We are the business that other electricians, both local and interstate call with our skill and expertise reaching far beyond many other electrical businesses. Laser Electrical Hallam provides an ideal solution, offering their services as an extension of your business. This service

means the customer is satisfied and the electrical business is satisfied and the job is done.

Our in-house Engineering department, provides the expertise to design and manufacture customised control panels for our clients, we supply these to other electrical contractors to satisfy their client's needs. If you need us to supply, install and commission - no problem, we can manage this too.

We offer a 24 hour, 7 day a week emergency service to all our clients and if you require, we can extend this to your clients also. All fault finding and repairs can be managed by our talented and reliable technicians, including PLC and VSD Diagnostics, instrumentation testing and calibration.

## **Laser Electrical Hallam can perform:**

- PLC systems and programming
